

FUTURE-SSC Liaisons to PICES Expert Groups: An objective for the FUTURE-SSC is to enhance communication within PICES. As such, members of the FUTURE-SSC will serve as liaisons to specific EGs and Committees. The **responsibilities of the liaisons** will be to: (a) attend the EG and Committee meetings with which they liaise in order to monitor the EGs progress and to report on FUTURE developments; (b) provide scientific direction towards implementation of FUTURE; and (c) report back to the FUTURE-SSC on the EG and Committee activities relevant to the FUTURE program. In addition, the Co-Chairs of the FUTURE-SSC will **solicit annual Activity Reports from each EG and Committee** prior to the PICES Annual Meeting, and report semi-annually to Science Board on the progress and any impediments to the implementation of the FUTURE program.

FUTURE SSC Liaisons (*= Primary liaison member)

(Revised 5 April 2017)

FUTURE-SSC Member	Committee	WG	Section	AP/SG
Jacquelynne King (CAN)	FIS	WG-34*, WG-36	S-CCME*	
Ian Perry (CAN)	BIO*, HD	WG-32, WG-37*		
Tom Therriault (CAN)	MEQ*	WG-39		NIS*
